EXPERIENCE

Vistaar Digital

April 2024 – Present

Software Engineer

Borivali, Mumbai

- Implemented **end-to-end encryption and decryption** for **Ciplamedflix**, securing frontend-backend communication and encrypting **PII data at the database level** using Strapi (Node.js) backend and React frontend; additionally configured **AWS EC2** instance and set up **CI/CD pipeline** using **AWS CodePipeline** for automated deployments.
- Engineered and maintained the **Laravel backend** for **Urban Logic**, a **US-based real estate management web app**, designing and implementing **RESTful APIs** for seamless frontend-backend communication.
- Integrated multiple **third-party services** including **Stripe** for payments, **AWS** for cloud infrastructure, and **Heroku** for deployment, ensuring a scalable and production-ready platform.
- Leveraged **Claude AI to automate key workflows** within the platform, reducing manual operational effort and improving overall productivity for real estate management processes.
- Managed key client accounts and collaborated with **cross-functional teams** through **Agile development processes**, ensuring strong client relationships, timely delivery and successful project outcomes.
- Conducted **interviews for Frontend Developer roles** and mentored new hires to integrate into the team effectively.

Vistaar Digital

June 2022 – March 2024

Associate Software Engineer

Borivali, Mumbai

- Developed and maintained **ICED NITI (iced.niti.gov.in)**, an Indian government platform built in **Angular**, creating pages for multiple sections and integrating various **charts and graphs** to visualize energy and weather data.
- Enhanced **Energy Transition Platform (energytransitionplatform.org)**, an existing **WordPress** project, by developing complex interactive **charts and graphs** for all Indian states, implementing **custom advanced filters** and improving overall user experience.
- Developed and deployed multiple **WordPress websites** for clients across various industries, building **custom plugins and themes** to meet specific business requirements.
- Applied **SEO strategies** to optimize website performance, visibility, and user engagement across multiple client projects.

PROJECTS

Unified Social Media Automation | *n8n, Workflow Automation*

- Designing a **single-platform content publishing tool** using **n8n workflow automation**, enabling users to input content once (captions, hashtags, location, images) and simultaneously publish across **Instagram, WhatsApp, Twitter, Facebook** and more.

Hanusan Pharmaceutical | *Shopify, Razorpay, Delhivery, Amazon, Flipkart*

- Independently built and launched a **full-scale Shopify e-commerce store** from scratch for a pharmaceutical client, integrating **Razorpay** for payments, **Delhivery** for delivery, and a customer review system.
- Scaled the business to **60+ orders within 2 months** of launch across **2 SKUs** and expanded reach by **listing products on Amazon and Flipkart**, demonstrating end-to-end ownership from development to marketplace growth.

Rajhans Hub | *Laravel, Blade, MySQL*

- Built a **full-stack wholesale stationery platform** using **Laravel and Blade**, comprising a **CMS** to manage **50+ categories, 150+ products, 20+ vendors**, staff and billing — alongside a **customer-facing web store** for doorstep ordering.
- Architected the system end-to-end handling the complete order lifecycle from cart to fulfillment, with a **mobile application** planned as the next phase.

AI-Assisted Landing Pages | *React.js, Tailwind CSS*

- Rapidly built multiple **modern, responsive React.js landing pages** for various businesses leveraging **AI-assisted development**, delivering production-ready projects within days.

SKILLS

Languages : PHP, JavaScript, HTML, CSS, SQL, PostgreSQL, Node.js
